

OcuTrap R1 Quick Start

Setup — read this side first

Scan for setup videos

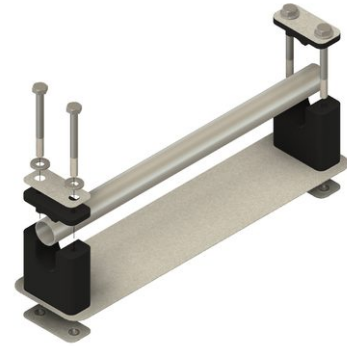

Full step-by-step videos & knowledge base at docs.ocutrap.com. This card covers the essentials.

1 Charge the battery

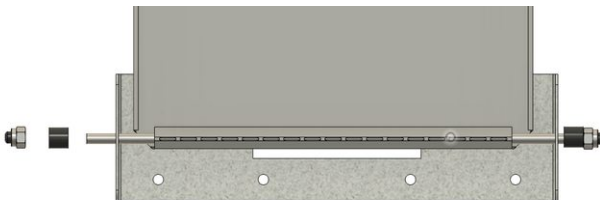

Plug the blue battery into the supplied charger. Light is **red** while charging, **green** when full. 4–5 hrs.

2 Assemble the handle

Center the handle guard. Insert the tube and bolts. Place the internal bracket inside the trap; hand-tighten.

3 Attach door & motor

Thread the metal rod through the door bracket. Pin the motor to the door and feed its cable through the handle tube.

4 Slide in the POD

Slide the POD down the rails. Connect the motor wire. Close the top latch firmly for waterproofing.

OcuTrap R1 Quick Start

Activate & arm — after hardware is built

5 · SET UP THE APP

- 1 Create an account**
Go to **base.ocutrap.com** or download the mobile app, then sign up.
- 2 Add your trap**
In the app: **Account** → **Add Trap**. Scan the QR inside the POD or type the serial number.
- 3 Activate subscription**
Follow the in-app prompts. Your trap appears on the dashboard.

■ Safety

- **Finger injury risk.** Keep hands clear of the door and motor at all times.
- **Power off** and disconnect the battery before any maintenance.

6 · POWER ON & ARM

- 1 Power on**
Install the charged battery and close the POD latch. The trap boots automatically.
- 2 Wait for breathing cyan**
Up to ~10 minutes to find cellular. A breathing cyan LED means connected.
- 3 Arm in the app**
Door must be **open**. Tap **Arm** in the app — the state LED turns yellow.

What the LED is telling you:

-  **Breathing cyan** — Connected — ready to arm
-  **Solid yellow** — Armed, door open, waiting
-  **Solid magenta** — Capture detected

- Use only the supplied charger. Do not submerge or expose to fire.
- Do not let children operate the trap. Wear gloves near captured animals.
